

The Annual AGORA Conference 2022, from September 16th to September 17th, 2022, will be held in Lisbon, Portugal. This year's theme is Future Directions for Southern European Patient Organisations which will address:

- Lessons learned during the last two years.
- Engagement of patient organisations in decision making
- New ways of obtaining biological treatment. Contemporary experiences from Portugal, Cyprus & Greece
- How to get new funds
- Changes in rheumatological care

Of course, it is so important that any in-person event these days comply with any local Covid-19 restrictions and the health and dignity of all attendees be respected.

We look forward to meeting you all there.

Best regards,

Deirdre
